Aditi Kumari

Software Engineer | Node.js | Python | SQL | Azure

+91-9199997517 · aditikumari35355@gmail.com · LinkedIn · Portfolio · LeetCode · GitHub · Bengaluru, India

Summary

Software Engineer at MAQ Software, promoted within six months, working on data-intensive applications, REST API integrations, SQL validation, Azure data pipelines, and automated testing for a US financial-services engagement. Hands-on experience building services with **Node.js, Express.js, MongoDB, REST APIs, JWT, and Socket.IO**, plus React interfaces. Strong foundation in database design, debugging, DSA, and software engineering fundamentals. B.Tech in Computer Science from NIT Agartala (CGPA: 8.28).

Experience

MAQ Software — Noida, India
Software Engineer I — *Jul 2026 – Present*

- **Promoted to Software Engineer I** within 6 months for reliable delivery on a US financial-services engagement.
- Designed and built a **Traceability Report** tool (Node.js orchestration layer, Azure DevOps REST APIs, LLM mapping engine, React 19 UI) that maps PBIs to acceptance criteria and test cases, with coverage/risk metrics and Excel export; structured with **Hexagonal (Ports & Adapters)** architecture.
- Authored a **SQL schema comparison report** identifying 60+ cross-database discrepancies and developed **pytest** unit tests for pipeline utilities, meeting an 85%+ line-coverage CI gate.
- Work on production data workflows and **REST API integrations**; build reusable **React.js** components with **Redux Toolkit** and **Tailwind CSS** (10+ components/pages shipped to production).

MAQ Software — Noida, India
Associate Software Engineer — *Jan 2026 – Jun 2026*

- Built **Azure Data Factory pipelines** for LAR data refresh and WizEnterprise reports, implementing dynamic `MERGE` logic, fixing AccountID-level race conditions, and improving logging and timeout handling to reduce inconsistent failures.
- Designed a **KPI validation framework** with an orchestrator and SQL template layer for CD Loans, supporting 30+ parameterized test-case IDs, LOB-level isolation, and score-cap enforcement; automated validation workflows to cut repetitive manual checks.
- Developed **PySpark notebooks** on Microsoft Fabric Lakehouse for CRA scoring analytics, using Delta tables and weighted multi-test performance calculations; improved validation accuracy and pipeline monitoring.

Education

National Institute of Technology Agartala — Agartala, India
B.Tech in Computer Science & Engineering | CGPA: 8.28 / 10 — *2022 – 2026*

Technical Skills

Languages: SQL, Python, JavaScript (ES6+), TypeScript
Backend & APIs: Node.js, Express.js, REST API Design, JWT Authentication, RBAC, WebSockets, Socket.IO
Databases: SQL Server, PostgreSQL, MySQL, MongoDB; SQL Queries, Database Validation
Cloud & Data: Microsoft Azure, Azure Data Factory, Microsoft Fabric, PySpark, Delta Lake
Testing & DevOps: pytest, Jest, Unit Testing, Git, GitHub Actions, CI/CD, Docker (Basics)
Frontend: React.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3
Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, System Design

Projects

Skillora | *Learning Management System* — GitHub | Live Demo

- Designed and built the backend of an LMS using **Node.js, Express.js, and MongoDB**, implementing REST APIs, **JWT authentication**, and role-based access control for student, instructor, and admin roles.
- Integrated **Cloudinary** for media management and **Razorpay/Stripe** payment flows.
- *Tech:* Node.js, Express.js, MongoDB, JWT, Cloudinary, React.js, Redux Toolkit

NextMeet | *Real-Time Video Conferencing Platform* — GitHub | Live Demo

- Built a multi-user video conferencing platform using **Node.js, Socket.IO, and WebRTC**, implementing signaling, concurrent room-state handling, live chat, and screen sharing; tested with 6 concurrent participants.
- Implemented connection-recovery logic to improve session stability and handle connection failures.
- *Tech:* Node.js, Express.js, Socket.IO, WebRTC, React.js, JavaScript

Achievements

Competitive Programming: Solved 1500+ DSA problems across LeetCode and CodeChef. **LeetCode:** Global Rank 5303 (Weekly Contest 401) — **CodeChef:** Global Rank 1134 (Starter 111 Division).
