Aditi Kumari

Software Engineer | React.js | TypeScript | Node.js | SQL

+91-9199997517 | aditikumari35355@gmail.com | LinkedIn | GitHub | Portfolio | LeetCode | Bengaluru, India

Summary

Software Engineer at MAQ Software, promoted within six months, building React.js interfaces, reusable components and REST API integrations for a US financial-services client. Strong in JavaScript (ES6+), TypeScript, Redux Toolkit, Tailwind CSS and Node.js, with hands-on experience in data-intensive workflows (Azure, PySpark) and automated testing. 1500+ DSA problems solved. B.Tech CSE, NIT Agartala (CGPA 8.28/10).

Experience

MAQ Software *Noida, India*
Software Engineer I *Jul 2026 – Present*

- Promoted to Software Engineer I within six months for reliable delivery and engineering ownership on a US financial-services engagement.
- Designed and built a **Traceability Report** tool (React 19, Vite, Node.js) that maps PBIs to acceptance criteria and test cases via Azure DevOps REST APIs and an LLM mapping engine, with coverage/risk metrics and Excel export, reducing repetitive manual mapping; structured with **Hexagonal (Ports & Adapters)** architecture.
- Build reusable **React.js** components with Redux Toolkit and Tailwind CSS, delivering responsive interfaces; 10+ components/pages shipped to production.
- Wrote a SQL schema-comparison report that surfaced 60+ cross-database differences, plus automated **pytest** validation, supporting an 85%+ line-coverage CI gate.

MAQ Software *Noida, India*
Associate Software Engineer *Jan 2026 – Jun 2026*

- Built Azure Data Factory pipelines for data refresh and reporting, implementing dynamic SQL MERGE logic, fixing AccountID-level race conditions, and improving logging and timeout handling to reduce inconsistent production failures.
- Developed PySpark notebooks on Microsoft Fabric Lakehouse (Delta tables) for CRA scoring analytics; improved validation accuracy and pipeline monitoring.
- Designed a KPI validation framework (orchestrator + SQL template layer) supporting 30+ parameterized test cases with LOB-level isolation, automating validation workflows to cut repetitive manual checks and simplify troubleshooting.

Projects

Skillora | Learning Management System GitHub | Live Demo

- Built a MERN learning platform with React.js, Redux Toolkit and Tailwind CSS, supporting course discovery and three user roles (student, instructor, admin) with dedicated dashboards and role-based access.
- Implemented REST APIs, JWT authentication and RBAC (Node.js, Express.js, MongoDB); integrated Cloudinary media uploads and Razorpay/Stripe payments.
- **Tech:** React.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, JWT

NextMeet | Real-Time Video Conferencing Platform GitHub | Live Demo

- Built a multi-user video conferencing app with live video grid, chat, screen sharing and real-time room-state updates using **WebRTC** and **Socket.IO**.
- Implemented signaling and client-side reconnection logic to recover from dropped connections; tested with 6 concurrent participants.
- **Tech:** React.js, WebRTC, Socket.IO, Node.js, Express.js

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, SQL

Frontend: React.js, Next.js, Redux Toolkit, React Router, Hooks, Context API, HTML5, CSS3, Tailwind CSS, Responsive Design, Performance Optimization

Backend & APIs: Node.js, Express.js, REST APIs, JWT, RBAC, WebSockets, Socket.IO

Databases: MongoDB, PostgreSQL, MySQL, SQL Server

Testing & DevOps: Jest, React Testing Library, pytest, Git, GitHub Actions, CI/CD, Docker, Postman

Cloud & Data: Microsoft Azure, Azure Data Factory, Microsoft Fabric, PySpark

AI-Assisted Dev: Claude Code, Cursor, GitHub Copilot, MCP integrations

Fundamentals: DSA, OOP, DBMS, Operating Systems, Computer Networks, System Design

Education

National Institute of Technology Agartala *Agartala, India*
B.Tech in Computer Science & Engineering | CGPA: 8.28/10 *2022 – 2026*

Achievements

- Solved 1500+ DSA problems on LeetCode and CodeChef; LeetCode Global Rank 5303 (Weekly Contest 401), CodeChef Global Rank 1134 (Starter 111).
